Transforming Villages – Convergence of MGNREGS

An inspiring experience of Ibrahimpur, Telangana

Dept. of Rural Development
Govt. of Telangana
Ibrahimpur - Demographics

• Siddipet District

• 25 KMs from District HQs - Siddipet

• Population – 1119 (Male- 544; Female- 575)

- OC; 279; 25%
- SC; 122; 11%
- ST; 15; 1%
- BC; 703; 63%
3 Years Ago..

- Poor & backward village
- No significant development
- No people’s involvement
- No visits by Officials / Public Representatives – Inefficient execution of govt. schemes
- Meagre infrastructure
- Lack of awareness on health & sanitation
- No drinking water
- Frequent Power cuts
Present day Ibrahimpur
Sanitation – IHHLs & Soakpits

- Active role of VO & SHGs – Sanitation Committee
- Awareness creation – Door to Door Visit
- 100% Coverage – ODF
- IHHLs & Soakpits under MGNREGS
- Penalty for open defecation; Whistle blow etc.
- Nirmal Puraskar award in 2013 - incentive of Rs.300000/- from GOI
- Reduced expenditure on health issues
Mosquito Free Village - 100% Soakpits

Before

Soakpit Construction

Once open drain – now free from waste
Solid & Liquid Management

- Taken up under SBM
- Supplied 2 dustbins for each household
- Door-to-Door Collection
- Dry & Wet Segregation
- Ban on Plastics & polythene
- Manure – Utilization in agriculture
Education

• Focus on education to children
• 100% enrolment – No dropouts
• Digital Classes
• Sanitation – Toilets
• Mid-day Meals – Model kitchen & dining room

• Adult literacy programme for illiterates - sign on EGS muster rolls, pension acquaintances and group resolutions
Health

• 100% immunization
• 0% MMR and IMR
• No. of Institutional deliveries in 2016-17 – 30 (100%)
• Regular Medical camps
Solar – LED Street Lights

- Street lights with solar/LED lights
- 1300 Domestic LED lights (7 watts) in all houses.
- Power saving in the Village.
- Support of NEDCAP & NATCO TRUST
24x7 Pure Drinking Water

• Purified drinking water from water plant.
• Rs.2/- per purified water can
• Plant - Established and maintained by BALAVIKAS NGO
• 100% households utilizing the pure water
• Water connection to every house – Mission Bhagiratha
• Improved health
MGNREGS – Land Development

- No. of Farmers Benefited: 116
- No. of Acres developed: 292
- No. of Mandays created: 22822
- Exp. (in lakhs): 26.28
- Additional Income Generation per HH: Rs. 40,000 to 50,000 p.a
• Boundary trench with 1x1 mts - water recharge

• 630 acres of land covered

• All the dried up open wells and bore wells recharged – substantial increase in water level

• Single acre was not left uncultivated during last rabi - also got the good yields

• Significant outcome - moisture conservation, two crops, additional income.
MGNREGS – Plantations

Horticulture

Teak Plantations

Haritha Haaram Campaign – 5000 planted in a single day

Teak Plantations

Avenue
MGNREGS – Plantations

- Greening the village
- No place for further plantations
- 40,000 seedlings planted in 2015-16
- 2,10,000 seedlings in 2016-17
- Involvement of students & villagers
- 7000 plants at single location – park – once defecation place – Beautiful Park
Animal Husbandry & Dairy

- 60 milch animals with 50% subsidy under National Mission Sustainable Agriculture (NMSA).
- Focus on dairy – selling 500 ltrs of milk outside village. Planning for 1000 ltrs by year end.
- Purchased 20 units of sheep with 50% subsidy
Infrastructure under MGNREGS

- Crematoria – under construction
- Cattle Sheds - 84
- Goat Sheds – under construction – 3 acres
- Vermi Compost Pits - 72
MGNREGS – Rural Connectivity

• No. of Kms covered: 3Kms
• No. of Mandays created: 8000
• Exp. (in lakhs): 3.42
• Improved access to agriculture fields
MGNREGS - Convergence

• Convergence with SERP
• 68 vegetable pandals were sanctioned
• The work is under progress
• Additional income of Rs. 50,000-75000 p.a.
Convergence - MGNREGS

- Convergence with PR Dept.
- 31 lakhs of rupees spent on CC roads in last 3 years.
- GP building completed with an expenditure of Rs.13 lakhs.
Efficient Use of ICT

- Wifi – Entire Village - BSNL
- 1st Cashless GP – Andhra Bank
- Cashless PDS
- Public Address System – Entire GP
Steps towards development

- Active role of Gram Panchayat
- Regular Gram Sabha – Discussion on the issues & ways to address
- Role of vibrant SHGs & VO
- Active Involvement of villagers, youth, NGOs – Participatory development
- Formation of GP level functional committees
- Interaction with officials & public representatives
Visit by officials / delegates
Focus in next 2 years

- Increasing monthly family income by Rs 15,000 to 20,000/-
- Priority for dairy & animal husbandry
- Marketing of vegetables & milk to nearby town & cities – Support through NRLM – SHGs.
- Improving nutrition
- Ensuring quality education
- Job training to unemployed youth
- Poverty free village
Lessons learnt..

• Strengthening of PR Bodies, Institution of Sarpanch and Conduct of Gram Sabha are must for integrated development of a village.

• Community participation brings sustainable development

• Convergence of various government schemes and various organizations like NGOs, civilians (donors), public representatives (MLAs, MPs) create scope for wider & deeply rooted development

• Focus on future trends & integrating it with ongoing govt. schemes at GP level to get maximum advantage.
Thank You
